

**COUNTY OF LOS ANGELES
FIRE DEPARTMENT
FIRE PREVENTION DIVISION**

AUTOMOBILE WRECKING YARD PERMIT REQUIREMENTS

Appendix Chapter 1, Section 105.6.2.1 of the Los Angeles County Fire Code states... an operational permit is required to operate automobile wrecking yard.

SECTION 4801 Automobile wrecking yards shall comply with the requirements of Chapter 48. For rubbish handling operations, see Chapters 3 and 13.

FIRE APPARATUS ACCESS ROADS

Fire apparatus access roads shall be constructed and maintained throughout the site in accordance with Section 503 of this code. Aisles or passageways shall be provided so as to allow fire department hose streams to reach all stored items and material.

WELDING AND CUTTING

Welding and cutting operations shall be in accordance with Chapters 26 and 30 of this code.

HOUSEKEEPING

Combustible rubbish accumulated on the site shall be collected and stored in approved containers, rooms or vaults of noncombustible materials. Combustible vegetation, cut or uncut, shall be removed when determined by the fire code official to be a fire hazard.

FIRE PROTECTION

Offices, storage buildings and vehicles used for site operations shall each be provided with at least one portable fire extinguisher with a rating of not less than 4-A: 40-B: C. When required by the fire code official, additional portable fire extinguishers shall be provided in specific use areas in accordance with Section 906 and NFPA 10.

TIRES

Tires shall be stored on racks in an approved manner or shall be piled in accordance with Chapter 25.

BURNING OPERATIONS

The burning of salvage vehicles and salvage or waste materials shall be in accordance with Chapter 3 Section 307 and federal, state or local air quality control regulations.

General. The storage, use and handling of motor vehicle fluids and hazardous materials, such as those used to operate air bags and electrical systems, shall be in accordance with Section 4610 and Chapters 22, 27 and 34.

Motor vehicle fluids. Motor vehicle fluids shall be drained from salvage vehicles when such fluids are leaking. Storage and handling of motor vehicle fluids shall be done in an approved manner. Flammable and combustible liquids shall be stored and handled in accordance with Chapters 22, 27 and 34.

Mitigation for vehicle fluid leaks. Supplies or equipment capable of mitigating leaks from fuel tanks, crankcases, brake systems and transmissions shall be kept available on site. Single-use plugging, diking

and absorbent materials shall be disposed of as hazardous waste and removed from the site in a manner approved by federal, state or local requirements.

Air bag systems. Removed air bag systems shall be handled and stored in accordance with Chapter 27.

Lead-acid batteries. Lead-acid batteries shall be removed from salvage vehicles when such batteries are leaking. Lead-acid batteries that have been removed from vehicles shall be stored in an approved manner.

Additional requirements may be applicable.
